REGISTRATION

NOTE: Up to four handsets can be registered to a single base station in option. The reference is AMPLIDECT595 U.L.E handset.

Registration a handset

On Base: Press **MENU/OK**, select ▼/▲ REGISTER.

Press **MENU/OK** to see REGISTERING... (If the registration is successful, there will be a confirmation beep).

On Handset: Press **MENU/OK**. Use ▼/▲ to select HS SETTING.

Press **MENU/OK**. Use ▼/▲ to select REGISTER.

Press **MENU/OK** and REGISTERING is display.

After a short delay, if the registration is successful, there will be a confirmation beep, and the handset display will go back to idle mode with the new handset number shown. The base display will also go back to idle mode.

PHONEBOOK

Your phone can store up to 50 private phonebooks with names and numbers. Each phonebook entry can have a maximum of 20 digits for the phone number and 10 characters for the name.

Phonebook entries are stored alphabetically by name and are identical in the base and handset.

To add new entry

In idle mode:

1. Press **MENU/OK**, and ▼/▲ to select **PHONEBOOK** and press twice **MENU/OK** to access the phonebook list (or empty).

2. Press **MENU/OK** and select **ADD**.

3. Press **MENU/OK** then enter phone number.

4. Press **MENU/OK** and enter the name.

5. Press **MENU/OK** to save.

4

SET SPEED DIAL KEY

1. Press **MENU/OK** and **▲/▼** to select **PHONEBOOK**.
2. Press **MENU/OK** and **▲/▼** to select **SPEED DIAL**.
3. Press **MENU/OK**, use **▲/▼** to select the speed dial key.
4. Press **MENU/OK**, select **ADD** or **EDIT**.
5. Press **MENU/OK** then enter the phone number.
6. Press **MENU/OK** then enter the **NAME**.
7. Press **MENU/OK** to confirm.

To use one speed dial key, **press and hold** in idle mode the key between 1 to 9 for 3 seconds (you hear a beep of confirmation). It is the same speed dial keys for the base and for the handsets cordless.

SOS EMERGENCY CALL

SOS settings

You need to set the SOS numbers before you can make SOS emergency calls.

1. Press **MENU/OK**, and **▼/▲** to select **SET SOS**.
2. Press **MENU/OK**, and **▼/▲** to select **SOS NUMBER**.
3. Press **MENU/OK** and **▼/▲** to select the SOS number to edit (**SOS 1, SOS 2, SOS 3** or **SOS 4**).
4. Press **MENU/OK** and select **ADD** to enter a new number or **EDIT** to modify the number stored already.
5. Press **MENU/OK** and enter a phone number or edit the number stored already.
6. Press **MENU/OK** and enter a new name or edit the name stored already.
7. Press **MENU/OK** to confirm or **Int/✕/C** to delete.

Make SOS emergency calls

Press and hold 2 seconds **SOS**  on the base to launch the emergency calling sequence from the SOS 1 number to SOS 4 number. A call will be first dialed to the SOS 1 number. If the SOS 1 number does not answer in 60 seconds, the call will be made to the SOS 2 number, and so on. See note.

NOTE:

- The other party receiving the SOS message must press any number on their phone to open the SOS call. Thereafter by pressing any number on their phone every two minutes will keep the emergency call open else the phone stops the call 10 seconds after.
- To stop the procedure launch by error, press and hold the SOS key until the alarm SOS stop.

Record SOS messages

You can record your customized SOS message to be played when you dial out an SOS emergency call otherwise the default message will be played.

1. Press **MENU/OK**, and **▼/▲** to select **SET SOS**.
2. Press **MENU/OK**, and **▼/▲** to select **SOS MSG**.
3. Press **MENU/OK** and **▼/▲** to select **RECORD**.
4. Press **MENU/OK** to start SOS message recording and "RECORDING ANNC..." will be displayed.
5. Press **MENU/OK** to save your SOS message.

Play SOS messages On base

1. Press **MENU/OK**, and **▼/▲** to select **SET SOS**.
2. Press **MENU/OK**, and **▼/▲** to select **SOS MSG**.
3. Press **MENU/OK** and **▼/▲** to select **PLAY**.
4. Press **MENU/OK** to start SOS message playback.
5. Press **▶/■** **PLAY/STOP** to stop SOS message playback.

PICTURE BIG BUTTON MEMORIES

You have the choice to store 3 picture memories and one direct memory on the base.

1. Press **MENU/OK**, and **▼/▲** to select **PHOTO MEM**.
2. Press **MENU/OK**, and **▼/▲** to select **M1** to **M4**.

3. Press **MENU/OK** and **▼/▲** to select **ADD** or **EDIT** and **VOICE TAG**.
4. Press **MENU/OK** then enter number.
5. Press **MENU/OK** then enter name.
6. Press **MENU/OK** to save.

You have the option to enter a voice name in choose **VOICE TAG** and **RECORD** at the point 3.

If you receive a call with the number registered with a voice tag, you can hear the voice name on the base and on the handset.

NOTES:

- To use a picture big button memory in idle mode, press the picture on the base.
- If you want to pass the call from the speakerphone to the handset, lift the handset off the base to take the call.
- If the handset is not placed on the base, press **SPEAKER**  to take the line in speakerphone mode and place the handset on the base.

ANSWERING MACHINE

Your telephone base includes a telephone answering machine that records unanswered calls when it is on. The answering machine can store up to 59 messages within the maximum recording time of approximately 15 minutes. As well as recording incoming messages, you can record memos for other users of your phone.

Switching Answering Machine On/Off

Press **ANS ON/OFF** to switch the answering machine **ON** or **OFF**.

Play Messages on TAM

If you have new messages, the display will show e.g. **2 NEW MESSAGES**, which means you have 2 new messages. The new messages are played first, and then are saved as old messages, until they are deleted. Old messages are played again after all new messages are played completely.

Press **▶/■** **PLAY/STOP** to start the playback.

NOTES: After new message is played, the new message will be saved as an old message automatically unless it is deleted.

During the playback:

1. Press **MENU** and **▼/▲** to select **STOP, FORWARD, PREVIOUS** or **DELETE** to perform the following functions during message playback.
 - **STOP:** Stop the current message playback and return to the **ANS. MACHINE** menu.
 - **SLOW ON:** to reduce the speed of the playback.
 - **FORWARD:** Skip to play the next message.
The date and hour information of the next message will display if there is next message.
 - **PREVIOUS:** Skip to repeat playing the current message from the beginning. The date and hour information of the current message will display.
 - **DELETE:** Delete the current message and the next message will be played.

2. Press **MENU** to confirm the setting.

Set the Answer Delay

You can set the number of rings before the answering machine answers and starts playing your OGM. You can set the answering machine to answer after two to ten rings or **TIME SAVER**.

The **TIME SAVER** function answers calls after 6 ring signals, until the first new message has been registered then the answering machine switches to answering after approximately 2 signals. This is useful when using remote access; if you call up the answering machine and there is no reply after four rings it means there are no messages recorded and you can hang up before you are charged for the call.

1. Press **MENU/OK** and **▼/▲** to select **ANS.SYS**.
2. Press **MENU/OK** and **▼/▲** to show **SET TAM**.
3. Press **MENU/OK** and **▼/▲** to select **ANSWER DELAY**.
4. Press **MENU/OK** and **▼/▲** to choose: **2 RINGS, 4 RINGS, 6 RINGS, 8 RINGS, 10 RINGS** or **TOLL SAVE**.

5. Press **MENU** to confirm the setting.

REMOTE OPERATIONS

If you are away from your home, you can call your answering machine to switch on or off the answering machine and listen to your messages remotely using another tone-dialing phone.

1. Place a call from a tone-dialing phone.
2. When the answering machine answers the call and starts playing OGM, press *****.
3. Enter the 4-digit Remote Access PIN (default PIN is **0000**).
4. Press the following keys to carry out your desired function.

KEY	FUNCTION	
	While message is not playing	While message is playing
2		Delete the current message playback
4		Repeat playing the current message from the beginning. Press twice to skip backward to the previous message.
5		Stop the current message playback
6		Skip forward to play the next message
7	Turn on the answering machine	
9	Turn off the answering machine	
*	Enter the 4-digit remote access PIN	

NOTES:

- When your answering machine memory is full, the answer mode will change to **ANSWER ONLY** automatically.
- It will change to **ANS & RECORD** mode automatically after some messages have been deleted.
- You cannot delete new messages until they have been listened to.

FUNCTION MESSAGE ALERT

When you have a new message, you can hear a beep every 10 seconds.

If you want deactivate this beep, follow the procedure.

1. Press **MENU/OK** and **▼/▲** to select **ANS.SYS**.
2. Press **MENU/OK** and **▼/▲** to show **SET TAM**.
3. Press **MENU/OK** and **▼/▲** to select **MSG ALERT**.
4. Press **MENU/OK** and **▼/▲** to select **OFF**.
5. Press **MENU/OK** to confirm.

ALARM FUNCTION

You have the choice to enter 10 Alarms.

1. Press **MENU/OK** and **▼/▲** to select **REMINDER**.
2. Press **MENU/OK** and **▼/▲** to select your alarm.
3. Press **MENU/OK** and **▼/▲** to select **ON/OFF**.
4. Press **MENU/OK** and select **ON**.
5. Press **MENU/OK** and enter the time.
6. Press **MENU/OK** and choose the frequency.
7. Press **MENU/OK** to confirm.

TALKING FUNCTION

You have the choose to activate or deactivate the function Talking Digits.

Activate: this function announces the digit dial or the CID number when you receive a call and that you have subscribed to the service.

1. Press **MENU/OK**, and **▼/▲** to select **TLK DIGITS**.
2. Press **MENU/OK**, and **▼/▲** to select **ON** to **OFF**.
3. Press **MENU/OK** to confirm.

FUNCTION FIRST RING

Sometimes, our phone rings one time to inform that we have any voice message on the line. To remove this ringer, you must activate the function.

1. Press **MENU/OK**, and **▼/▲** to select **BS SETTING**.
2. Press **MENU/OK** and **▼/▲** to select **FIRST RING**.
3. Press **MENU/OK** and select **ON**.
4. Press **MENU** to save.

MAINTENANCE

Clean the surface of the housing with a soft, fluff-free cloth. Do not use any cleaning agents or solvents.
